**Please welcome our newest advertiser.** Degen Designs started in 2000, first releasing the BBQ101520 antenna, a shrunken 10-15-20m Quad Antenna. Several years later a very high gain 2m antenna was released, followed by a dual band Log Periodic antenna for VHF/UHF. During this period Degen started doing contract and design work for commercial customers which has been the mainstay and focus of the business for the last 10 years.
