On December 3, 2018, Canadian Space Agency (CSA) astronaut David Saint-Jacques, KG5FYI, who is originally from Quebec City, travelled to space on his first mission "Perspective."

He will spend about six and a half months aboard the International Space Station (ISS), where he will do science experiments, operate Canadarm2 and test new technologies. The Canadian ARISS Team is working extremely hard to schedule all of the contacts between the Space Station and schoolchildren.

The front cover features two of these school contacts.
