

# RAC CANADA DAY CONTEST – 2014 RESULTS

By Bart Ritchie, VE5CPU and Sam Ferris, VE5SF

**Update: The original results for the Single Op All Bands High Power (SOABHP) had an error in the results due to an issue with our summary worksheet. It had originally reported that Tom Nail, WA2BCK was the winner when in fact it was Paul Newberry, N4PN who was the winner for that category as well as the Top Scoring Single Operators Foreign Entry - any authorized power.**

**Please accept our apologies for the error. The results and plaques will be updated and sent to the correct operator.**

With Canada Day falling on a Tuesday this year, it was expected that we would see a lower level of activity compared to those times when it falls on a weekend around the world. The level of participation is really in line with prior years when the holiday falls within the normal work week.

Gabor Horvath, VE7JH did not let this interfere with setting a new record in the SOABCW category. He bumped up the old record by just over 28,000 points with a score of 218,040. Following on that trend Igor Slakva and his team using the VA3RAC callsign set a new record in the MOSTLP with a score of 415,166 increasing that result by 35,866 points. Great efforts by both teams!

Once again there were notable comments around propagation, especially from those outside of North America.

With that bit of introduction, on with the detailed results!

## **SINGLE OP ALL BANDS HIGH POWER**

Paul Newberry, N4PN wins the SO-AB-HP plaque sponsored by

## **SINGLE OP SINGLE BAND**

20 meters continues to be the main band for those in the SOSB category and again produced the top three scores in this category. ### A Few Statistics

Logs submitted	399
- Canada	181
- US	110
- other countries	96
Total QSOs	57,181

We appreciate all the Cabrillo formatted logs, but encourage you all to check to make sure all the pertinent information is correct in the Cabrillo headers. Not all of you are getting the correct entry classes entered in the header due to limitations in your software. Please make sure you are using the most current version available.

The RAC Contest Management team continues to get the results out as quickly as possible with as much accuracy as we can. In the event we have let any errors in, please accept our apologies and be assured we will be happy to correct any problems that are identified and publish any updates on the RAC web site.

### CANADA DAY CONTEST – 2015

The contest managers look forward the contest and to hope to see increased participation during the 2015 running of the Canada Day Contest, which is scheduled for July 1, 2015, a Wednesday this year. Please join us as it is a great way to spend part of the Canada Day holiday!

The RAC website at <http://wp.rac.ca/contesting-results> has all the contest rules and entry forms.

A Cabrillo formatted electronic log submission really helps to manage the work to compile the contest results. Although we encourage electronic logs, we will continue to accept paper logs for small entries (less than 100 contacts).

If you are not submitting a Cabrillo log, we ask that those entrants include a summary sheet providing the required information and where possible, a breakdown of VE, RAC, and DX contacts as well as the multiplier total. This will make compiling and checking of logs a bit easier and aids to a quicker turnaround of the results.

As a reminder, when submitting e-mail entries, please make the subject line meaningful. Our preference is Call - Category - RAC Canada Day. For example: VE5CPU – SOABHP – RAC Canada Day.

*To those who participated in 2014, THANKS and we hope you enjoyed the event! Good luck in the 2015 RAC contests.*

73 ... Bart, VE5CPU  
Sam, VE5SF
